- Wayne State University Medical School Alumni Association
- Academy of Model Aeronautics

## Personal Interests

I love teaching, whether the students were medical students, interns, residents, colleagues or patients. I also enjoy photography, drawing, painting, studying history, building model automobiles and aircraft, flying RC helicopters and planes, playing soccer, tennis, and creating illustrations and animations on the computer. One of my philosophies in life is, if anything, have fun while you're accomplishing your goals, for if you do you will truly be healthier, wealthier and wiser!

A handwritten signature in black ink, reading "Nader S. Meri MD". The signature is written in a cursive style with a large, sweeping flourish at the end.
